

Terms and Conditions

1. You must be an SPU electric residential customer.
2. Effective date of the SPU Residential Rebate program is January 1, 2017. Only purchases made on or after the start date are eligible. The program end date is December 15, 2017, **or until funding is depleted. Funds are limited. SPU does not guarantee funds availability.**
3. Customer agrees that the product purchased must be for primary use in a residence with an active meter receiving SPU electric services.
4. Rebates are based on energy efficiency levels **described under the product's rebate eligibility requirements** (listed for each product). Equipment installations must meet our minimum efficiency requirements.
5. The rebate amount cannot exceed the purchase price nor can a rebate be received for the same product from more than one utility or other third party program funded with CAP Agency or State program funds.
6. Customer agrees that SPU reserves the right to inspect the installation premises or request additional documentation prior to rebate payment.
7. **SPU reserves the right to modify, amend or terminate the Residential Rebate Program, in whole or in part, without prior notice.**
8. Questions? Call 952-233-1524.

Funds are limited. SPU does not guarantee funds availability. The program end date is December 15, 2017, or until funding is depleted.

How to Submit a Rebate Application

FOR ALL REBATES

Customer must ensure all information is correct, legible, and includes a rebate application

Application must include:

- A final, detailed copy of the original sales receipt/invoice/packing slip, which must include the store name, customer name, date of sale, manufacturer name, model number, and date of installation
- ENERGY STAR Energy Guide Label
- UPC Label, if required
- Proof of SEER, EER, HSPF, if required

FOR RECYCLING REBATES

Application must include:

- Proof of recycling from retailer or county recycling center showing the fee paid

Mail the completed **and signed** rebate application form, along with a legible copy of the sales receipt and required documentation to:

**Shakopee Public Utilities
Residential Rebate Program
PO Box 470
Shakopee MN 55379**

IMPORTANT

Applicants are advised to retain a copy of the rebate application form, sales receipt and any applicable material submitted to SPU under this program for your records.

ALL SUPPORT ITEMS MUST BE INCLUDED AND APPLICATION MUST BE SIGNED OR REQUEST WILL BE RETURNED.

Energy Efficient Lighting

LED Light Bulbs

To qualify for ENERGY STAR, LED lighting products must pass a variety of tests to prove that the products will display the following characteristics:

- Brightness is equal to or greater than existing lighting technologies (incandescent or fluorescent) and light is well distributed over the area lighted by the fixture.
- Light output remains constant over time, only decreasing towards the end of the rated lifetime (at least 25,000 hours or 22 years based on use of 3 hours per day).
- Excellent color quality. The shade of white light appears clear and consistent over time.
- Efficiency is as good as or better than fluorescent lighting.
- Light comes on instantly when turned on.
- No flicker when dimmed.

Rebate: (maximum of 5 - product must be purchased in 2017) \$8.00 each

LED Holiday Light Strings (minimum: 25 lights per strand)

Make the holidays bright for less with ENERGY STAR LED holiday light strings.

- LED holiday lights last longer; they have an operational life span of roughly 20,000 hours, enough to last for 40 holiday seasons.
- Because they use less power, it is safer to connect multiple strings of LED holiday lights end-to-end without overloading the wall socket.
- LED holiday lights are made in the same shapes and varieties as typical incandescent holiday lights, but LED holiday lights are more durable than incandescent bulbs, with the lamp shape typically made out of a solid plastic rather than glass.
- Running LED holiday lights on one 6-foot tree for 12 hours per day for 40 days can save 90% or more energy when compared to traditional incandescent holiday lights.

Rebate: (maximum of 5 - product must be purchased in 2017) \$3.00 each

LUMENS = BRIGHTNESS
WATTS = ENERGY USED

LUMENS (brightness)	WATTS LED Light Bulbs	WATTS Incandescent Light Bulbs
450	4-5	40
800	6-8	60
1,100	9-13	75
1,600	16-20	100

Energy Efficient Lighting Rebate Claim Form

Terms & Conditions

- You must be an SPU electric residential customer.
- Maximum five (5) rebates per residential customer per year for ENERGY STAR LED light bulbs and for ENERGY STAR qualified LED light strings.
- Rebate may not exceed purchase price.
- Rebates must be requested by December 15, 2017.
- SPU does not guarantee funds availability. Due to limited funding, this rebate offer may be withdrawn at any time without notice. Rebate applications are processed on a first-come, first-served basis.
